

# Choices That Cover It All

# DRAPES & FABRIC

**Elegant Materials:** You have a choice of eight fabric options, from standard trade show drape to high-end rich fabrics. Black-out drape is also available.

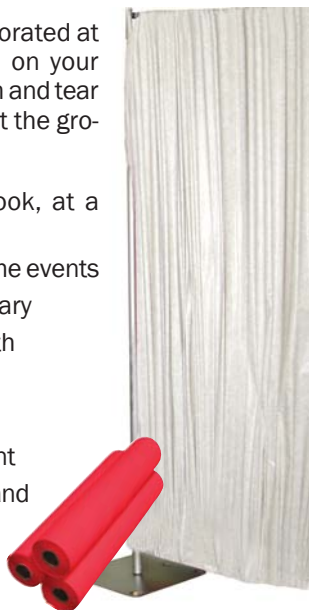

The standard drape height for our pipe system is a 94" high back and a 34" high side with a 4" rod pocket on both the top and bottom of the drape. Place a pipe in the bottom rod pocket to weigh down the drape and keep it taut.

## “Throwaway” Vinyl Drapes

**Easy to Use:** Drapes will be perforated at pre-determined lengths, based on your specifications. Simply unroll them and tear them off (just like plastic bags at the grocery store)

- The advantage of a drape look, at a lower cost
- Ideal for quick needs or one-time events
- No storage or cleaning necessary
- 54" wide; you specify the length
- You pick the color
- Pattern prints also available
- All vinyl drapes are fire retardant
- All vinyl drapes are pocketed and perforated to your specifications

## Banjo Cloth

- The most common style of drape in use at trade shows
- Back panels of 4' wide and 8' high panels; side panels of 4' wide x 3' high panels or 12' wide x 3' high panels
- Fire retardant; passes California fire marshal test

1<sup>st</sup>: Beige; Berry; Black; Burgundy; Dusty Rose; Gold; Hunter Green; Peach  
2<sup>nd</sup>: Plum; Red; Royal Blue; Sea Foam; Silver; Violet; White; White/White

## Premier

- Provides the “linen” look for more formal areas
- Ideal for meeting rooms, offices, schools, banquet facilities
- Richer look than standard trade show draping
- 100% polyester, easy care
- Flame retardant; passes California fire marshal test

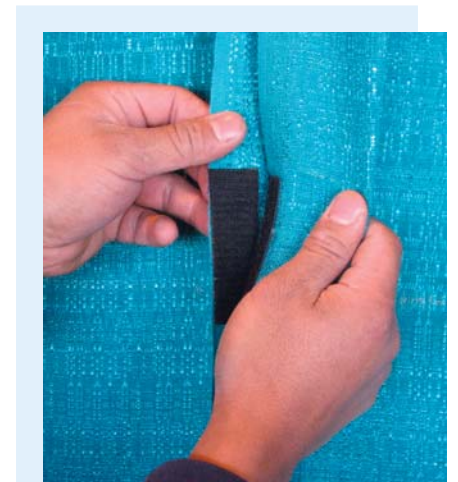

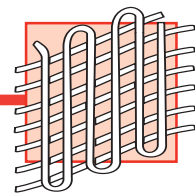

1<sup>st</sup>: Beige; Black; Blueberry; Bone; Burgundy; Dark Blue; Gray; Hunter  
2<sup>nd</sup>: Lavender; Maize; Mauve; Navy; Olive; Purple; Red; Royal  
3<sup>rd</sup>: Sage; Silver; Teal; Terracotta; White

## Velcro Strength

Our unique optional velcro system:

- Ensures your privacy by lessening the chance that drapes might open due to wind or breeze
- Drapes are hooked in place securely
- Ideal for temporary dressing rooms or staging areas

### Heavy Duty

- Sewn with sleeves at top and bottom, enabling them to be reversed for longer wear
- Both sides present an attractive appearance

Black; Blue; Burgundy; Eggshell; Jade; Red; Silver; White

### Velour

- Classic, brushed fabric — the standard for theatrical, stage, and event drape for over 50 years
- 100% cotton
- Treated for flame retardancy

Black; Blue; Burgundy

### PolySateen

- See-through fabric
- Best used for specialty purposes (not for skirting)

1<sup>st</sup>: Beige; Black; Burgundy; Expo Green; French Blue; Gold; Hunter; Orange  
2<sup>nd</sup>: Peach; Plum; Red; Royal Blue; Seafoam; Silver; Violet; White

**TIP:** You can also **use pipe at the bottom of your drape** (horizontally) to assure a neater presentation, and lessen the likelihood of your drape moving in wind or drafts

## Black-out Drape

Black-out drape (Premier black drape with black-out lining), combined with black pipe:

- Significantly reduces light
- Ideal for temporary dressing rooms
- Able to cover the sides of a temporary stage.

### Duveltyne

- Non-reflective specialty fabric
- Most often used to reduce glare while filming

Black; Blue

### PolySuede

- A washable “suede” look that appears much richer than its weight might indicate
- 100% polyester
- Durable flame retardant

Black; Blue

### Poly Plush

- Brushed nap finish; medium weight fabric with enough opacity for high drape jobs
- 100% polyester
- Durable flame retardant and machine washable

Black; Blue

## Multi-Color Options

You have a world of color options, whatever style of drape fabric you choose. Please call us to request color fabric samples.

## Custom Drape Sewing

We can fabricate from any material you specify or supply. If you have a preferred fabric in hand or in mind, our shop can cut and sew it to create drapery or table skirting. We can also customize drapes from any commercially available fabric or any of the fabrics we sell. Call us to discuss customization options.
